New age solutions

Privato

Private spaces have become an essential part of new age modern offices. Privato standalone booths provide the perfect private space for telecons and meetings in privacy, without compromising the open look of the workplace.

ISO 23351-1:2020 (published in July 2020) is a new standard measuring speech reduction levels of phone booths, work pods, and other furniture ensembles. Its test calculates a figure called "speech level reduction," denoted as DS,A (decibels/dB). It is the first ISO standard specific to booths and other semi-enclosed furniture pieces.

DIVANO *Uber* YOUR OMNISPACE

Divano Uber is a specially curated offering from Spacewood Office Solutions.

This unique range brings to you a breathtaking variety and choice of soft seating that transforms ordinary spaces into your omnispace.

Whats makes *Uber* stand apart

Strength of the inner frame
Divano Uber is inherently strong due to the use of welded metal frames which are tested for strength and durability

Good seat and backrest comfort
Carefully designed and woven prime-quality, heavy-duty elastic straps and dimensional stability of moulded polyurethane back

Uniform size of moulded armchairs
Well engineered, high quality moulding process ensures uniform size of arm chairs

Environmental Friendly
Polyurethane components are water expanded and do not contain CFC or metal catalysers, making it environment and ozone-friendly.
Long life of the product reduces disposal volume thereby reducing carbon footprint.

Fire retardant classification
Polyurethane components are fire retardant and conform to industry standards. Please ask for additional information and test reports

Dimensional stability of moulded polyurethane
Excellent mechanical strength due to foam density of 50-55 kg/m³ makes it possible to create multiple and innovative shapes
